

K-5th grade

The Praise Factory is a six year, multi-age children's systematic theology curriculum for elementary school children.

Getting Started

Getting Started

1. Read through the introduction and Big Ideas parts of them to get a grasp of the curriculum. You may want to read Big Ideas parts of them to get a grasp of the curriculum.
 2. Think through these questions:
 - a. How much time do you have with your children in your teaching session?
 - b. What order do you do resources in that activities, id@ how could you change the order?
 - c. Given your particular group of children of the world, which ones would you like to add as the children become familiar with the first ones?
 - d. Which ones would you like to add as the children become familiar with the first ones?
 - e. Are there some elements which you will not use in class which you might suggest?
 3. Decide which format you want to use: Large group, small group format, as written. Or, combined class.
 4. Decide how many activities you want to use/need to use.
 5. Print out the introduction and as much of the appendices as you wish. Decide which activities you want to use.
- NOTE: Remember that these are intended for use in a classroom setting. If you are using them in a home setting, you may want to adjust the activities to suit your needs.
6. Put the curriculum in a three-ringed binder.

7. Download and burn the Music CDs.
8. Print out the Music CD inserts and cut down to size.
