

Using Praise Factory Resources in Other Curriculums

Don't feel like you have to use a full Praise Factory curriculum! Your church may be using another curriculum that you really like, but perhaps could be helped out with some extra resources. The appendices of each of the Praise Factory curriculums have a number of resources that can be used as supplements.

Let's look at the resources in each curriculum you might want to consider:

Teach, Take & Tell/Big Questions and Answers for little people (Preschool)

These two curriculum overlap in many of the activity resources, so they will be presented together.

1. Story Corner Bible Stories

These are Bible stories that fit in with each of the twelve Big Question units, as found in a number of good children's resources. These stories are listed according to theme and according to difficulty: easy, medium, and most challenging. There is one list for each of the twelve Big Question units.

As you look at the story and theme you are using in another curriculum, you very well will find that it fits into one of these twelve Big Question units. Use the list to find stories to use with your children as a part of your lesson time, or as a supplement during free play time.

2. Just for Fun Activity Ideas

These are activities that are just, plain enjoyable! You may want to add some into free play time.

3. Intake Activities (used in Weeks 2 and 3 of each Key Concept)

These are simple games you can use with your children to review any Bible story. These games make use of flannelgraph pictures. Use your Betty Lukens or other flannelgraph set together with your curriculum's Bible story.

4. Music, Movement and Memory Activities

These are simple music and movement activities that can be used with any song or any memory verse. Use these with your curriculum's music and memory verses.

5. Teach, Take and Tell Just Songs CD, Big Question and Answers Just Songs CDs

These music CDs contain all of the hymns, scripture songs and praise songs used in these two curriculums. You can use them to help teach the Scripture in your own lessons; or to have in the background as children play.

The Praise Factory (Elementary school ages)

1. Story Review Games

These are games that can be used with any Bible story. Use them with your own lesson's Bible story as a fun, but profitable review time.

[Story Review Games.pdf](#)

2. Scripture Games

These are games that can be used with any Bible verse. Use them to learn your own lesson's Bible verse.

[See Scripture Games pdf](#)

3. Big Idea Games and VIPP Games

While the Big Idea and the VIPP are two parts of the Praise Factory curriculum that your own curriculum will not have, these games can be easily adapted as more Story Review Games.

[VIPP Games.pdf](#)

4. Song Games

These are simple games that can be used to make learning songs, and particularly songs with sign language, more engaging. Use them with your own curriculum's music.

5. Best Kindergarten Games

These are a collection Story Review, Scripture Verse, Big Idea and VIPP Games from the Praise Factory games that seem to best suit kindergartners. You can use them with your own kindergartener's lesson.

6. The Praise Factory Hymns and Scripture Songs CDs

There are over 120 Scripture songs and portions of 50 hymns included in the 5 volumes of CDs. You very well may find your own lesson's Bible verse among these; or choose to teach a hymn whose theme correlates to your lesson. Download songs or print out the words and music.
